

I carefully selected XM for the following reasons:

- ? More choice of musicians and Better music.
- ? More coverage of local and national issues.
- ? More balance news stories.
- ? More diverse opinions.
- . Instantaneous news and weather coverage? This is important to me because I travel.
- . I pay for this service; therefore, it needs to be free of the government/religion intrusion into to what I prefer to listen.
- . I strongly oppose the HR 4026.

Note: Our USA infrastructure, schools, national parks, economy, environment is deteriorating, but we have some government representatives more interested enriching themselves via the lobbyist trying to take away some thing that is valuable service to me and the USA citizen which is choice/freedom.
